23 September 2015

Dear Mr. Jintao MENG :

On behalf of the Asian Technology Information Program (ATIP), I am pleased to extend an invitation for you to participate in ATIP's 5th workshop on Chinese Computing, which is sponsored by the US National Science Foundation and will be held on November 15-20, 2015 in Austin Texas USA. The workshop provides unique and ample US-China interaction opportunities for two nations' computing communities. Additionally, participants from both sides have the unique opportunity to develop their own relationships, networks and opportunities for future collaborations.

Your paper entitled *SWAP-Assembler 2: Scalable Genome Assembler towards Millions of Cores - Practice and Experience* has been accepted by the workshop. The purpose of your participation is to present information on your paper and network with the worldwide community. Additionally, we are inviting you to attend the annual SC15 conference which will be held that week in Austin Texas, to develop a broader understanding of research worldwide on this topic.

As part of ATIP's invitation, we will provide (1) five nights hotel accommodations in Austin, (2) registration for the SC15 conference and workshop. You will be responsible for roundtrip airfare from China to Austin.

We are looking forward to your participation. If you have any questions or require additional material, please do not hesitate to contact me at your earliest possible convenience.

Sincerely,

Dr. David K. Kahaner, President
